OwO Imaging
SOLUTIONS

ATLAS C-65

Spinal Fusion

Spine Root Back

Shoulder Arthrography

Metacarpal Bone ORIF

NEUROSURGERY
Spinal and neurological procedures.

PAIN MANAGEMENT
Epidurals, nerve blocks and injections.

SPINE PROCEDURES
Injections and instrumentation.

TRAUMA & EMERGENCY
Fractures and urgent procedures.

ORTHOPEDICS
Fractures, fixation and alignment.

EXTREMITIES
Hand, wrist, foot, ankle, arm and leg.

Mobile C-Arm with Flat Panel Detector

The ATLAS CDR-35 is a mobile C-arm designed to deliver clear, high-resolution fluoroscopic imaging with efficient low-dose operation. Its compact, counterbalanced design provides excellent maneuverability and easy positioning across a wide range of clinical procedures.

Power Type	**AC**
Output Power	2kW High Frequency Generator
Input Power	120-240 VAC
kV Range	40~110 kV (1kV Step)
ma Range	0.5~6.9 mA
MONITOR	Ultra Wide 34” (Optional Fold)
Intensifier	9”

ECONOMICAL

High performance at an excellent value.

HIGH-RESOLUTION IMAGING

1K CCD camera for excellent image quality and precise diagnosis.

MULTI-PURPOSE USE

Ideal for neurosurgery, pain management, orthopedics and emergency rooms.

135° ORBITAL ROTATION

Greater patient access and faster positioning.

COMPACT DESIGN

Wide C-arc and small footprint for maximum flexibility.

USER DEFINED KEYS

Pre-sets for dose management and image calibration per imaging area.
